

RoHS & WEEE Directives Statement

We recognise responsibilities to the environment as well as its customers.

With the advent of the RoHS (2015/863) amendment of the RoHS DIRECTIVE 2011/65/EU, RoHS-Recast, Article 4(1), China RoHS: (Restriction of Hazardous Substances) and WEEE (Waste Electrical and Electronic Equipment) directives, we have reviewed our processes to ensure we are able to assist our customers to meet their responsibilities regarding these directives.

The substances and restriction thresholds covered under this directive are:

- Lead(Pb) : 0.1%
- Mercury(Hg): 0.1%
- Cadmium(Cd): 0.01%
- Hexavalent chromium (Cr6+) : 0.1%
- Polybrominated Biphenyls (PBB): 0.1 %
- Polybrominated Diphenyl Ethers (PBDE): 0.1 %
- Bis(2-Ethylhexyl) phthalate (DEHP): max 0.1%
- Benzyl butyl phthalate (BBP): max 0.1%
- Dibutyl phthalate (DBP): max 0.1%
- Diisobutyl phthalate (DIBP): max 0.1%

Easby Electronics designates products and RoHS, RoHS2 and RoHS3 compliant based on information provided by our suppliers. RoHS/RoHS2 and RoHS3 compliant means that the supplier has confirmed the compliance of the relevant products either because they do not contain any of the restricted substances referred to at concentrations in excess of those permitted under the RoHS Directives or because removal of the restricted substances is not technically possible and their existence in the products at levels in excess of these concentrations is allowed for the particular applications listed in the Annex to the Directives.

Easby are a franchised distributor of electronic components, therefore the scope of the legislation and the CE marking system is not a requirement for the products we supply to the majority of our customers. If any of our products is deemed to need CE marking we will work with our suppliers to ensure that they comply.

Currently all our components are indicated as RoHS/RoHS2/RoHS3 compliant or non-compliant. We continually review our compliant parts to ensure that if exemptions apply they are still current.

Easby Electronics has taken all reasonable steps to confirm suppliers' statements regarding the absence of the restricted substances.
